ISA Exercise for Individuals with Metabolic & Cardiovascular Disease Course

Course Synopsis

Metabolic syndrome identifies people with an increased risk of developing cardiovascular disease and type 2 diabetes mellitus. The different risk factors for metabolic syndrome includes central obesity, hypertension, hyperglycaemia, dyslipidaemia and obesity. Lifestyle intervention such as incorporating physical activity has been shown to reduce the risk of developing cardiovascular disease in this population. This workshop will prepare participants with the exercise prescription guidelines and recommendations for people with cardiovascular disease. Special considerations during training will also be covered for the respective populations. The exercise guidelines and recommendations taught in this workshop will be presented using the frequency, intensity, time, and type (FITT) principle, which are core components of an exercise prescription.

Course Objectives

Upon successful completion of the course, participants will understand:

- Understand the benefits of physical activity for clients who are with or at risk of metabolic disease and cardiovascular disease.
- Describe developmentally appropriate physical activity programs for individuals with metabolic disease and cardiovascular disease risk, and demonstrate an understanding of age-specific needs and concerns
- Understand the various test protocols/procedures and exercise recommendations
- Discuss exercise recommendations and precautions for individuals with metabolic disease and cardiovascular disease risk factors.

Course Syllabus

Please refer to page 3 for detailed course syllabus and class schedule.

Assessment

ISA Theory Assessment – 50% to pass

10 MCQs & 9 Short Answer Questions

30 Jul 2022, 10am – 11am “Via Zoom”

(Note: Re-examination will be at a charge of \$32.10, including GST)

Award

Upon completion of the course, each participant will be awarded **ISA Exercise for Individuals with Metabolic & Cardiovascular Disease Course**

Payment

Payment can be made via:

1. **Cash**
2. **Cheque**
3. **Online Transfer**

ISA Exercise for Individuals with Metabolic & Cardiovascular Disease Course

Course Schedule

23 Jul 2022 (Sat)
