## ISA Certificate in Basic Sports Massage

## Course Synopsis

This course emphasizes the techniques of deep tissue and recovery massage. Participants will learn essential concepts such as Human Anatomy and Kinesiology in order to build a strong foundation which will aid them in massage. Participants will then learn how to conduct massage techniques such as effleurage, petrissage and tapotement. Participants will also learn the indications/contraindications and the appropriate application of these approaches for various conditions. Additionally, this course provides participants with an understanding of basic medical terminology and the relationship between anatomy/physiology and the practice of sports massage. Finally, participants must complete 10 hours of a massage attachment under the supervision of the trainer.

## Course **Objectives**

Upon successful completion of the course, participants will understand:

- Basic anatomy/physiology of the human body
- Whole body sports massage techniques
- The application of deep tissue and recovery massage techniques
- The indications/contraindications of sports massage
- How to conduct a proper set up of the massage bed and preparation of the client for the massage
